

Work Skills Enterprise Scheme

SWALLOW has started a **Work Skills Enterprise Scheme**.

Based in Midsomer Norton, on a **Monday and Tuesday** each week, we have created a real life working environment within an educational framework for people with learning disabilities.

This scheme works with people who are really interested in finding employment.

SWALLOW helps people to gain the skills and experience needed to be able to have a successful ongoing work placement.

We also show what is expected in the world of work and the commitment that is required.

Scheme participants have developed a greetings card company, through which they learn skills such as :

- Planning and research
- Budgeting, sales and marketing
- Design and art
- Presentation and time keeping
- CV writing and interview techniques

Please note, that this scheme is only suitable for people who want to become more responsible for themselves and genuinely wish to find employment.

All candidates need to pass a selection interview.

For further information please contact:
Beverley Craney or Georgi Millar on
01761 414034.
